

6.29 Effects of climate change

Topic: Conservation

Subtopic: Climate change

Activity type/skill: Orientation

Literacy focus: Listening

Genre: Information reports

Objective

- Introduce the subtopic effects of climate change.
- Make links with prior knowledge.
- Recall relevant vocabulary.

What you need

- Student worksheet (see next page)

What to do

1. Look at the student worksheet. Write the questions on the board then talk about them one by one to draw out students' existing knowledge of the possible effects of climate change. This may include global warming. Point out that global warming is only one aspect of climate change. They will have ideas from the previous section.
2. Record their ideas as bulleted notes on the board and have them copy them on their worksheets to come back to when they have finished this section.

Effects of climate change

How will our climate change?
